CONTENTS

Vol. 31, No. 1, March, 1982

M. Yamakido, N. Yorioka, K. Goriki, K. Wada, J. Hata and Y. Nishimoto. Carbonic anhydrase I and II levels in erythrocytes of chronic renal disease patients. ····1-6
T. Kojima, I. Une, M. Yashiki and K. Hosoma. A case of drowning whilst swimming after thinner-sniffing.····7-9
G. Kajiyama, I. Horiuchi, K. Yamada and S. Kubota. Levels of serum and biliary lipids and their composition in patients with pure cholesterol and mixed gallstones.····11-19
T. Tanaka, H. Kitani, K. Makimoto, J. Uno and N. Shimizu. A case of pseudoxanthoma elasticum complicated by angioid streaks and hypertension. ····21-25
H. Okahata, Y. Nishi, H. Yoshimitsu, T. Tanimoto and T. Usui. A case of Noonan's syndrome with primary pulmonary hypertension. ····27-29
Y. Kawaguchi, E. Kittaka, Y. Tanaka, T. Tanaka and T. Usui. Ultrastructural study of human natural killer (NK) cell. ····31-35
M. Kodama, N. Ito, O. Kodama, Y. Ogawa, Y. Kato, T. Matsuyama, H. Yoshida and H. Ezaki. Effects of active amines on development of stress ulcers: review of noradrenalin, 5-hydroxytryptamine and histamine levels in brain and gastric wall of restrained and cold exposed rats. ····37-44
S. Takasugi and T. Kanno. Increase in content and release of kallikreinogen in acute experimental pancreatitis in rats. ····45-50
Y. Naito. Studies on experimental colon tumorigenesis in rats. 2. Cell kinetics of the colon epithelium and its relation to histogenesis of colon tumors. ····51-61

Vol. 31, No. 2, June, 1982

C. Ito, H. Matsubara, M. Yamakido and H. Yamada. Comparison of medical data of Atomic-Bomb Survivors Resident in the U. S. and Hiroshima.····63-75
H. Sasaki. Scanning electron microscopic studies on intubation damage of trancheal mucous membrane. ····77-85
K. Aihara, Y. Nishi and T. Usui. A case of Aarskog syndrome with a review of Japanese literature. ····87-90
F. Ishibashi. Effects of anti-microtubular agents on alloxan stimulation and inhibition of glucose-induced insulin release in vitro. ····91-95
Y. Satow, N. Okamoto, J. Y. Lee and H. Sumida. On the study of developmental genetics of isolated pulmonary hypoplasia. ····97-102
K. Egawa, M. Muta, T. Fujii, A. Fujiwara, C. P. Crum, L. Braun and R. M. Richart. Human papilloma virus infection (condyloma) of the uterine cervix in Japanese women.····103-106
Y. Satow, K. Ohmae, N. Okamoto, T. Abe and S. Watanabe. Natural history of disease in atomic bomb exposed twins in Hiroshima —findings of chest X-ray and electrocardiogram—.····107-116
T. Inagawa. Parallel variation of homovanillic acid, 5-hydroxyindoleacetic acid and cyclic adenosine-3, 5-monophosphate in ventricular cerebrospinal fluid of man.····117-121
K. Goriki, K. Wada, J. Hata, M. Kobayashi, A. Hirabayashi, K. Shigemoto, N. Hamaguchi, N. Yorioka and M. Yamakido. The relationship between carbonic anhydrases and zinc concentration of erythrocytes in patients under chronic hemodialysis. ····123-127
S. Yamawaki, K. Maeoka and K. Sarai. Effect of filter on specific [^{3}H]-5-hydroxytryptamine binding to synaptic membranes. ····129-131
Y. Nishi, K. Hayashi, R. Matsuura, Y. Tanaka and T. Usui. Periodic paralysis in children: case report and review of Japanese literature. ····133-135
H. Tasaka, K. Kiyotani and Y. Matsuo. Effect of β-glucuronidase inhibitor from *Mycobacterium tuberculosis* against microbicidal activity in phagocytes of guinea pigs. ····137-139
Y. Matsuo and H. Tatsukawa. Attempts at cultivation of *Mycobacterium leprae* in cell culture under regulation of redox potential at environment. ····141-143

CONTENTS

Vol. 31, No. 1, March, 1982

M. Yamakido, N. Yorioka, K. Goriki, K. Wada, J. Hata and Y. Nishimoto. Carbonic anhydrase I and II levels in erythrocytes of chronic renal disease patients. ····1-6
T. Kojima, I. Une, M. Yashiki and K. Hosoma. A case of drowning whilst swimming after thinner-sniffing.····7-9
G. Kajiyama, I. Horiuchi, K. Yamada and S. Kubota. Levels of serum and biliary lipids and their composition in patients with pure cholesterol and mixed gallstones.····11-19
T. Tanaka, H. Kitani, K. Makimoto, J. Uno and N. Shimizu. A case of pseudoxanthoma elasticum complicated by angioid streaks and hypertension. ····21-25
H. Okahata, Y. Nishi, H. Yoshimitsu, T. Tanimoto and T. Usui. A case of Noonan's syndrome with primary pulmonary hypertension. ····27-29
Y. Kawaguchi, E. Kittaka, Y. Tanaka, T. Tanaka and T. Usui. Ultrastructural study of human natural killer (NK) cell. ····31-35
M. Kodama, N. Ito, O. Kodama, Y. Ogawa, Y. Kato, T. Matsuyama, H. Yoshida and H. Ezaki. Effects of active amines on development of stress ulcers: review of noradrenalin, 5-hydroxytryptamine and histamine levels in brain and gastric wall of restrained and cold exposed rats. ····37-44
S. Takasugi and T. Kanno. Increase in content and release of kallikreinogen in acute experimental pancreatitis in rats. ····45-50
Y. Naito. Studies on experimental colon tumorigenesis in rats. 2. Cell kinetics of the colon epithelium and its relation to histogenesis of colon tumors. ····51-61

Vol. 31, No. 2, June, 1982

C. Ito, H. Matsubara, M. Yamakido and H. Yamada. Comparison of medical data of Atomic-Bomb Survivors Resident in the U. S. and Hiroshima.····63-75
H. Sasaki. Scanning electron microscopic studies on intubation damage of trancheal mucous membrane. ····77-85
K. Aihara, Y. Nishi and T. Usui. A case of Aarskog syndrome with a review of Japanese literature. ····87-90
F. Ishibashi. Effects of anti-microtubular agents on alloxan stimulation and inhibition of glucose-induced insulin release in vitro. ····91-95
Y. Satow, N. Okamoto, J. Y. Lee and H. Sumida. On the study of developmental genetics of isolated pulmonary hypoplasia. ····97-102
K. Egawa, M. Muta, T. Fujii, A. Fujiwara, C. P. Crum, L. Braun and R. M. Richart. Human papilloma virus infection (condyloma) of the uterine cervix in Japanese women.····103-106
Y. Satow, K. Ohmae, N. Okamoto, T. Abe and S. Watanabe. Natural history of disease in atomic bomb exposed twins in Hiroshima —findings of chest X-ray and electrocardiogram—.····107-116
T. Inagawa. Parallel variation of homovanillic acid, 5-hydroxyindoleacetic acid and cyclic adenosine-3, 5-monophosphate in ventricular cerebrospinal fluid of man.····117-121
K. Goriki, K. Wada, J. Hata, M. Kobayashi, A. Hirabayashi, K. Shigemoto, N. Hamaguchi, N. Yorioka and M. Yamakido. The relationship between carbonic anhydrases and zinc concentration of erythrocytes in patients under chronic hemodialysis. ····123-127
S. Yamawaki, K. Maeoka and K. Sarai. Effect of filter on specific [^{3}H]-5-hydroxytryptamine binding to synaptic membranes. ····129-131
Y. Nishi, K. Hayashi, R. Matsuura, Y. Tanaka and T. Usui. Periodic paralysis in children: case report and review of Japanese literature. ····133-135
H. Tasaka, K. Kiyotani and Y. Matsuo. Effect of β-glucuronidase inhibitor from *Mycobacterium tuberculosis* against microbicidal activity in phagocytes of guinea pigs. ····137-139
Y. Matsuo and H. Tatsukawa. Attempts at cultivation of *Mycobacterium leprae* in cell culture under regulation of redox potential at environment. ····141-143

Vol. 31, No. 3, September, 1982

Y. Nisimaru. Summary of our studies concerning the structure and function of lymphatic system. ····145-160
T. Kojima, M. Yashiki and I. Une. Stomach rupture after oxygen therapy using a nasal catheter. ····161-164
H. Oemar, T. Masaoka, I. Kanazawa, A. Yuasa, S. Eno, Y. Tsuchioka, H. Matsuura, H. Kurogane, M. Yoshida, G. Kajiyama, A. Miyoshi and T. Oshima. A case of giant left atrial myxoma combined with mitral regurgitation.····165-173
M. Yashiki, Y. Nishiyama, I. Une and T. Kojima. A new metabolite of methyprylon detected in a cadaver having ingested methyprylon.····175-180
T. Iida, M. Katoh, F. Tsukiyama, K. Nakamura, T. Watanabe, M. Ikeda, K. Muroki, Y. Fujiue and M. Kuwabara. Protease and elastase production in relation to serotype of *Psudomonas aeruginosa*. ····181-185
M. Munaka, N. Kishida, H. Yamamoto, K. Ishigai, M. Ohtaki and H. Ueoka. Public health nutritional studies on the atomic bomb female survivors living in Hiroshima. ····187-198

Vol. 31, No. 4, December, 1982

Y. Nisimaru. Concept of body fluid circulation. (Ichimai kishomon—One-page petition)····199-201
T. Shiosaka, H. Ohminami, Y. Kobayashi and H. Okuda. An improved method for determination of serum adenosine deaminase activity and its clinical applications.····203-210
Y. Miyamoto, S. Arita, Y. Hori, H. Miyamoto, E. Hatano and K. Tsuge. A new computer assisted method for morphological assessment of peripheral nerve regeneration: statistical analysis of spatial patterns of axons. ····211-218
M. Harada, M. Takahashi, M. Kodama, T. Matsuyama, T. Tanaka, H. Takeuchi, T. Kuramoto, T. Hoshita and H. Ezaki. An adult case with congenital dilatation of common bile duct —a study on the relationship between bile acids and the cause of congenital biliary dilatation—.····219-223
T. Iida, M. Katoh and Y. Matsuo. Adherence of *Pseudomonas aeruginosa* to a rabbit cornea cell line (SIRC) cells. ····225-232
F. Yunus. Basic and clinical studies on mouth occlusion pressure in healthy subjects and patients with pulmonary and muscular diseases.····233-258
J. Iriuchijima and Y. Teranishi. Cardiac output in conscious and almost unrestrained spontaneously hypertensive rats. ····259-265
